

I am writing to ask that you not allow Low Power FM to take priority over current FM translator service. I am a daily listener to K-LOVE radio which is heard in my community via FM translator service. This radio station provides a huge benefit to the community in positive and encouraging radio that is rarely found nowadays. Therefore, I believe it is in the public's best interest to allow a radio station like K-LOVE to continue to use FM translator service and not get overrun by the LPFM.
